

We specialise in the exclusive manufacture and supply of underground roof control systems which cater for soft and hard rock mining environments.

MSP CAMPROP

The MSP Cam-Prop is a re-useable temporary hanging wall support unit that can be remotely removed. Its structure is manufactured from a two-steel tubing system which allows for efficient support of hanging wall when prestressed using the cam mechanism.

MSP CAMPROP FEATURES & BENEFITS

- Light weight
- Easy to install
- Remote release
- No creep under static conditions

MSP CAMPROP AVAILABLE SIZES

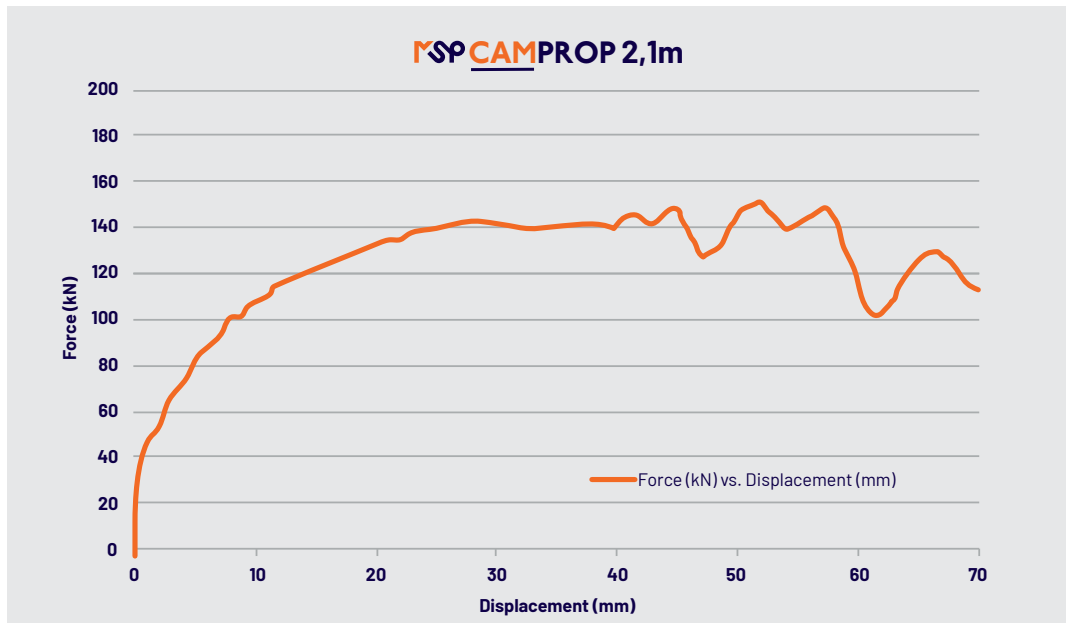

ITEM	MIN HEIGHT (KG)	MAX HEIGHT (KG)	WEIGHT APPROX (KG)
